

## Safety Systems

G-RAFF Safety Systems are designed to provide safe access and fall protection to tank / bulk trucks, tank cars, and hopper cars.

All G-RAFF safety systems are engineered for operator safety, for compliance with governing O.S.H.A. standards, and for your specific application.

### Features

G-RAFF Safety Systems have many unique features:

- Custom designed lengths anywhere from 5' to 40'
- Counter-balanced safety enclosure surrounds the operator for quality fall protection
- Meets and exceeds O.S.H.A. requirements

### Access

Various access options include:

- Various gangways and enclosures
- Full length safety bridges or stairs available
- Optional power package

### Finishes

- Hot Dipped Galvanized
- Gray enamel/ Safety Yellow/ Custom
- Aluminum

### Engineering

G-RAFF designs and custom-builds safety systems that meet even the most challenging requirements.

Our engineering team has over 150 years of experience collectively and utilizes state-of-the-art CAD software.
